Not hard to amend study protocol in acup
If they are not around we can figure a way to keep it going.

Well, we might be able to change course, but not sure. This has been part of our planning in terms of scheduling around people's summer vacations etc. The postnatal beginning May 7th is scheduled to be one that terminates on PND2 (what we described in our ACUP/LAPR). So we can do a different chem if you want, but prob too late to completely change the study design. Like, I don't know if Christy/Nicki will even be here when it would be time for weaning or VO/PPS, etc.

~~Christy mentioned something at lunch that suggested~~ **Ex. 5 Deliberative Process (DP)**
Ex. 5 Deliberative Process (DP) Maybe I misheard her. Don't think we want to do that with ntb2

Hi Mike,

Could you please let us know the decision of the committee on our ACUP Amendment as soon as possible
after your meeting tomorrow? The compound itself is approved and **Ex. 5 Deliberative Process (DP)**

Ex. 5 Deliberative Process (DP)

Cheers,
